NEWJERSEY SALE OR RENT Do-it-Now-Don't Delay HOMES WITHIN THE COMMUTING ZONE

THERE IS NO home shortage in New Jersey. While in other sections building construction has been at a standstill and while investigators have been spending weary days trying to learn why construction has stopped and rentals have gone to the highest levels in history, New Jersey builders, well supplied with materials and labor at reasonable prices, have continued their work of creating new homes.

YOU CAN BUY to-day in New Jersey the kind of place you want. in the section you like and at a price that you will say is reasonable. You will find that the dwellings now being offered in New Jersey will cost you less than dwellings equally well built and located in any other part of the suburban district,

THESE NEW HOMES are confined to no one section, but are to be found everywhere within commuting distance of New York. Many are in the more closely settled portions of Hudson, Morris, Essex and Bergen counties and others can be seen in the upper portion of the state, where the Ramapo foothills begin. The charming communities along the Atlantic Coast all the way to Asbury Park are dotted with them, and still more have been built throughout the rolling plain that occupies the central part of the state.

THE BROKERS and builders who have subscribed to this advertisement invite you to inspect some of these dwellings because they believe you will find one that you will like so well you will buy it and live in it. If you will communicate by mail, telephone or in person with any of those named here you will be assured of courteous and considerate attention. Come to New Jersey!
